### THE SHOEMAKER AND THE LEG OF APPELLES.

*"I laugh and grow fat at the follies I see,*
*And you're welcome to fatten by laughing at me."*

I know not any anecdote that ever pleased me better than one we have recorded of the celebrated Appelles. It was his custom, on exhibiting his pictures to the public view, to hide himself behind the canvass, that he might hear the remarks made on his work. Among others, a shoemaker went, & tho't himself enough of a connoisseur to make a critical remark, even on painting. He pointed out a defect in the *slipper* of one of the figures, and the good natured artist, considering it as a remark of a professer in his way, altered his slipper agreeable to the shoemaker's suggestion. The next day Crispin was again at the exhibition, and observing the alteration in the slipper, set to work to decry the *leg*—on which Appelles looked from behind the canvas, and angrily bade him keep to his province.

Having this constantly in mind, I seldom go abroad without meeting with some incident to assimilate with the conduct of the shoemaker. When I see Miss Scandalina Ghostly move her hands, feet, head, eyes, lips, nay, her very fingers, by rule, both of time and distance, in order to be *graceful*, forsooth; and Miss Bid Whirligig laugh, and flirt, and leer, at every thing and every body, in order to be tho't *vivacious*; I say, "nay, sweet dears! you are just like the shoemaker who found fault with the leg drawn by Appelles; you are assuming powers which nature forgot to endow you with." When I hear Mrs. Opulent pull to pieces the characters of her neighbors, because they wear less costly apparel than herself, and Mrs. Lovepenny rail at the same people's extravagance; I set it down for certain Mrs. O. and Mrs. L. resemble the shoemaker who criticised on the leg drawn by Appelles. When I hear a peevish old maid speak ill of matrimony, or a henpecked husband hoot a merry gig of a batchelor, I say, "Ah! here again is the shoemaker, and the leg of Appelles." When I hear an occulist descant on the *focus of the globe*, or a musician expatiate on the goodness of *plain batter pudding*, I shake my head, and think of the shoemaker and the leg of Appelles. When I hear a quibbling attorney harangue on the beauties of *truth and justice*, or an old woman say the French are coming, because she dreamt a flock of wild geese landed at London; I say to myself this too is the shoemaker and the leg of Appelles.—When a friend tells me his gardener *can lay out the walls of the planets*, or his wife's writing mild essays, if she were *tete-a-tete* with Mr. Pitt, she would tell him such and such things might be done for the good of the nation; I say, "poor man, this is but the shoemaker and the leg of Appelles." When I see an amateur in music fall asleep at a concert, because the composition of an Englishman is performing, or am told the head speaker of a forum got up and said, 'gentlemen it is going to rain because my corn shutes,' I exclaim, "mercy on us, why there's nothing but shoemakers and legs of Appelles." When my apothecary tells me with a serious look, I am ruining my constitution by taking too much air and exercise, and must have a purge, and a vomit, and a blister, to *strengthen me*; and my hairdresser declares if he was Emperor, he would *powder* the French to some tune; I smilingly remember the shoemaker and leg of Appelles.—When I hear a school mistress say, "Vat a wastly bad eddication that lady has had, her governess an't known nothing of grammar." Or a haberdasher who never stepped over the limits of Farringdon Within, talks when he makes the *tower* of Europe, he'll *cut off* so many miles on his *route*, between Dover and Calais; I say, "woe is me! this is worse than the shoemaker and the leg of Appelles."—And 'tis a pity to publish it. Sometimes when I hear the col. of a regt. extol the art of war, or a parson preach of divinity, I have reason to lament that even here I find the shoemaker medling with the *leg* instead of the *slipper*.

HANDBILLS—CARDS—BLANKS—AND JOB PRINTING OF ALL DESCRIPTIONS EXECUTED IN THE NEATEST MANNER, AND ON THE SHORTEST NOTICE.

THE PITTSBURGH GAZETTE.

TUESDAY EVENING, JANUARY 3, 1815.

In the Senate of this State, Mr. Lowrie submitted a resolution, which goes to instruct the committee on the militia system to bring in a bill authorising the Governor to raise 5 regiments of infantry 1 battalion of light artillery, and 1 battalion of riflemen, to serve during the war for the defence of the state, and for the purpose of co-operating occasionally with other forces in the defence of New-Jersey, Delaware and Maryland.

Jonathan Roberts has been elected by the Legislature a Senator of the United States, for six years from the 4th March next.

No business of importance has as yet come before the House of Representatives of this State.

The report of the committee appointed to investigate the cause and particulars of the capture and destruction of the public property at Washington, have reported to the House of Representatives of the United States, the following estimate of the original cost of the buildings and property destroyed :—

| | |
|---|---|
| The Capitol, | $ 787,163 28 |
| The President's House, | 354,334 00 |
| Public Offices—Treasury, State, War and Navy, | 93,613 82 |
| Public Library—value not stated. | |
| Navy Yard—moveable property, | 678,210 71 |
| Buildings and fixtures, | 91,425 53 |

The committee state, that of the moveable property at the Navy Yard $ 260,465 has been recovered, and that as the walls of the Capitol and President's House are not little injured, $ 450 00 will be sufficient to place the buildings in the situation they were previous to their destruction. The committee say nothing as to expense, nor give any further particulars than those above stated.

Mr Pearson, from the committee appointed to enquire into the conduct of James Magruder, Clerk to the House of Representatives of the United States, reported, that in the examination of accounts, a scene of waste and profusion was opened which astonished the committee ; that they find over charges made by the said Clerk, which they refused to allow; and further state, that the Clerk had, between January and September last, drawn from the Treasury upwards of $ 19,000, which had not been applied to public use. The committee give it as their opinion, that the public Library was lost through the negligence of the Clerk or his officers.

The Orrde of Dauphin, of Dec. 17, says "Yesterday appointed a committee to examine the utility of a recently constructed gun, for which the proprietor and inventor, Col. Chambers, has applied to the Legislature for encouragement. At 3 o'clock an experiment of its utility was made on the State House Hill in the presence of most of the members of the legislature, and a large concourse of spectators. The gun has seven barrels, and discharges 224 times, as rapidly to count, and is capable of being moved in any direction, while discharging. It was considered as a very extraordinary piece of machinery, and without doubt might be rendered a powerful instrument in the destruction of an enemy."

The Plattsburgh Republican of Dec. 11, says, "We continue to receive intelligence of the preparations of the enemy for a winter expedition."

*At an Annual Meeting of the Shareholders of the Pittsburgh Permanent Library, the following Report was presented and read*, viz:

IN conformity with a resolution of the Board of Directors at their last meeting, the Secretary offers the following history summary for the information of the Library Company at large:

On the 10th of January 1814, the Pittsburgh Permanent Library became organized, and under the management of its Board of Directors, has existed as you will find it. At the time of its organization as a society, fifty-nine members had voluntarily enlisted themselves in its support. Their original subscriptions amounted to $ 590 00. Of this sum the Board found it expedient at first to lay out $ 237 02 1-2 in the purchase of a bookcase and other furniture for the room. The balance then due to the Company was $ 252 37 1-2—of which sum 00 have been actually expended in the purchase of books, say 68 volumes. In addition to these we have, or ought to have, upon shelves, one volume presented as a gift, and 390 volumes, which by the contrivance of the first promoters of the institution, required deposits of books to be made by a certain class of members.

By this statement you will perceive that the sum of $ 154 37 1-2 of the original funds of the institution, remains to be invested in books.

| | |
|---|---|
| To this sum of | $ 154 37 1-2 |
| Added sixty one annual contributions for the first year | 305 00 |
| And the price of twenty-two new subscribers | 220 00 |

Amounting in the whole to $ 679 37 1-2 which, when judiciously invested, you will acknowledge will make no insignificant augmentation to the stock of our next year's reading.

In making this annual estimate, your Reporter ought not to conceal from you that, although on the one hand, the liberality of the county commissioners prevents every apprehension of expence accruing for *rent*, the liberality of your board of directors has, on the other hand, taxed the income of the present year, with the incumbrance of a small acknowledgment of fifty-two dollars for the services of the Librarian—a provision which was not suffered to affect their operations during the first twelve months.

In thus exposing to your notice this accumulation of expence, the board of directors have but one apology to offer: they were impressed with the sentiment that the growth and respectability of the institution materially depend upon the careful attention and punctuality of the librarian: and that to secure to *themselves* the services of one who might be suitable to the employment, an *ample* and generous compensation should be secured to *him*.

The difficulties through which this Library Company (like most institutions of a similar kind) has had to struggle during the first period of its infancy, led some of its promoters to apprehend that it would scarcely survive its first anniversary. Those apprehensions, however, have so far subsided as to render its continuance no longer questionable.

The first great struggle which was to secure the existence of this society being past, it behoves us now to make a fresh effort in order to render it *respectable*; for until it becomes duly appreciated by the public, we must not flatter ourselves with the hope of general support—and nothing but what is made to *appear* respectable can long possess the public favor. To effect this laudable purpose, the Board of Directors have thought proper to call on the proper authority to make this Company a Body Politic, by an act of incorporation. As soon as this is accomplished, we may with increasing confidence look to the period when this Institution shall be acknowledged by the popular voice, as a common benefit to us all.

A. M. BOLTON,
*Sec'y of the Board.*

Pittsburgh, 26th Dec. 1813.

As a special notification to all concerned, it may be proper to subjoin to this report the 2d section of the 3d article of the Constitution, *viz :*

"Each member shall pay an annual contribution of five dollars on the last Monday of December of every year, or within ten days after. But if any member neglect to pay the annual sum of five dollars aforesaid, on the day aforesaid, and for ten days afterwards; and for any time longer, not exceeding three months from and after the said last Monday in December, such member shall pay to the treasurer for the time being,* the fine of two dollars and an half, together with the said yearly payment. And for neglecting as aforesaid for any time above three months and not exceeding six months, the fine of five dollars: And for neglecting as aforesaid for any time above six months and not exceeding nine months, the fine of seven dollars and an half: And for neglecting as aforesaid for any time above nine months and not exceeding twelve months, the fine of ten dollars, and his share be forfeited as an unworthy member."

Whereupon, it was on motion Resolved, That the foregoing Report be published in two of the Pittsburgh gazettes, and that 200 copies of the same be struck off in sheets, to be sent as circulars to all the shareholders.

FRANCIS HERRON,
*President P. P. L. C.*
AQUILA M. BOLTON, *Sec'y.*

HARTFORD, (Con.) *Dec.* 10.

On Thursday last, the Delegates from the New England States, appointed to meet in Convention at Hartford, assembled for that purpose in the Council Chamber of the State House in this City, at 10 o'clock, A. PLATTSBURGH, (N. Y.) *Dec.* 9.

"UNCLE SAM'S PAY"—*Again.*

The detached militia of this state, who have been stationed at this post, for these 3 months past, are principally discharged and are to leave this place to-day.—For the encouragement of the citizens of this state to UNITE in defence of "*Free Trade and Sailor's Rights*," and, when called for, to turn out "to a man," and march to subdue the Canadas, we have to inform them that the aforesaid militia, are now permitted to leave this, and get to their homes as they can, without (as they inform us) a cent of their pay, or even so much as the offer of a solitary treasury note, some of them the distance of 200 miles. Yesterday, a number of them were about our streets begging for assistance, declaring that it was by the benevolence of the people, only, they had hopes of being enabled soon to reach their homes.

Who will not "UNITE" in this righteous war, and support the just and wise administration who declared it? "*Union! Union!*"

---

PROSPECT BEFORE US.

The eagerness with which people of all parties grasp at the phantom of negociation that has just come flitting across their hopes, with other intelligence equally illusory from Europe, is as strong a proof as any that can be imagined of their galling impatience under the sufferings inflicted by the war, for to us, it appears that nothing less than that extremity of despair which makes men, when drowning, grasp at a floating straw, could induce any one who had given the subject reasonable consideration, to set up the loose suggestions scattered thro' the columns of European newspapers, and the equally loose reports of passengers, against the strong circumstances of notoriety, which militate against the truth. Do those who are so sanguine as to expect peace, because some European dealers in paragraphs have chosen to say that negociations are going on, or because the English commissioners and the American commissioners are polite to each other, really imagine that G. B. after having been so kindly helped to the war by Mr. Madison and his congress, will so readily give up the opportunity it affords her, and which she never again may have presented to her in so favorable a way, of placing a permanent barrier between this country and her colonies, and of destroying, or at least diminishing, our faculties for future wars? Or do they believe that Mr. Madison has so entirely changed his mind that he is willing to make to G. B. the sacrifices she will not fail to exact, partly for her own future security, and still more to return upon him in disgrace the injuries he has done her, and the deadly blows he has endeavored to enable Bonaparte to make at her existence? If they do, the sooner they disabuse themselves the better. Those will be least likely to be disappointed who hope least for peace, and who fix their views of its attainment at some period after Mr. Madison shall have vacated the presidential chair, and retired to Montpelier or the grave. After such gross insults as he has offered to the British nation in the person of its sovereign, and such envenomed malice as he has for 30 years discovered to herself, it may be doubted whether she will ever accede to any treaty in which he shall be a contracting party. The British minister who would do it, would become probably an object of public disgust and abhorrence. Mr. Madison, indeed, may find it convenient to himself to procure a peace with England *at any rate*, but if he does she will exact from him a price that she would not demand from any other president that was not of his faction. Nor can we suppose it possible that she will afford him peace but upon such terms, as by their disadvantageousness to this nation will make a lasting impression on its people, and fill them with eternal abhorrence of him and his detestable party. Thus will this unfortunate country be sacrificed to the interest of a worthless man and a wretched faction. Nor can any thing save her from being so sacrificed but an immediate change of men.

People talk of negociation, as if it were giving a bond for peace. Thus the ignorant mislead the foolish—the blind lead the blind, and they both fall into the ditch. Do they consider that protracted negociations have no less ruinous effects upon us in our situation than active war. Every day that the oily British commissioners entertain our Solomons, and gamblers at Ghent with dinners & words drains this country to the amount of about $ 200000—exhausts our resources, and chokes up the fountain of our national prosperity. Such campaigns as the last, tho' little creditable to G. B. do her business as effectually as could splendid victories; and for all the purposes of exhaustion and consumption, the alarm and on the sea coast and the necessity of keeping our whole country out under arms, will be equal in effect to all that Lord HILL could do, if he were landed on Long Island with 30 or 40000 men.

Such are causes we have to rejoice at the supposed resuming of the negociations at Ghent.

TEMPER OF MARYLAND.

On Saturday last, immediately after the receipt of information at Annapolis, that the CONSCRIPTION BILL had passed the House of Representatives of the U. S. the following spirited order was moved in the House of Delegates of this state, read a second time by especial order, and passed by a large majority, only 15 members voting against it :

*House of Delegates, Dec.* 17, 1814.

ORDERED—That the committee appointed on so much of the communication of the executive of this state as relates to the policy of the general government, and the existing state of public affairs, be instructed to consider and report what measures it may be competent and proper for this house to take, for maintaining, the sovereign rights of this state, and protecting the liberties of its citizens against the operation of arbitrary and unconstitutional acts of the general government.

NEW YORK, *Dec.* 22.

A letter from Sackett's Harbor, dated Dec. 15 states that there has lately arrived at that place, a lieut. of the British navy, deserter from Canada. He commanded the brig Linnet, which was burnt last summer at the head of lake Ontario, to prevent her falling into our hands. He intends offering his services to our government, and is to be sent on to Washington. He is a genteel man in his dress and appearance, tho't to be intelligent, and therefore to be distrusted.

He states that the enemy's new frigate at Kingston is nearly ready for launching, and that they have laid down the keel of another ship of the same size as the St. Lawrence, and are collecting large quantities of timber. He further states that they have got out the frames of 2 frigates near lake Erie, and intend bringing them down to the lake and setting them up as soon as the sleighing becomes good. He also states that the enemy are building two 20 gun brigs on lake Huron.

The Neptune was to remain at Brest till spring; when, and not till then, let the negociation terminate as it might, Messrs. Bayard, Clay and Gallatin would embark in her.

WASHINGTON CITY, *Dec.* 29.

The bill for authorising the President to call into service 80,000 militia for the defence of the frontiers of the U. States, has received its *quietus*. The two houses being unable to agree on the term of service of the Militia to be drafted in pursuance of the bill, the further consideration of the same was, yesterday, postponed in the Senate to a day beyond the end of the session, which vote is equivalent to a vote of rejection.

THE NATIONAL BANK BILL,

Having progressed to a third reading in the House of Representatives, was yesterday *recommitted* to the committee of ways and means for amendment.

Capt. Sockett, of the letter of marque sch. Hollins, arrived at N. # GENUINE FAMILY MEDICIES.

## BOSLER & Co.

*Front Street, between Market & Wood Streets, PITTSBURGH,*

HAVE just received from *Lee's Patent and Family Medicine Store*, New York, a fresh supply of the following

GENUINE MEDICINES.

*For the prevention and cure of Bilious and Malignant Fevers is recommended*

HAHN'S ANTI-BILIOUS PILLS.

The operation of these Pills is very mild, so as to be used by persons in all situations, and of every age.

They are well adapted to carry off superfluous bile, and prevent its morbid secretions, to restore the appetite, to produce a free perspiration, and thus prevent Colds, which are often of fatal consequences. A dose never fails to remove a Cold, if taken on its first appearance. They are celebrated for removing habitual costiveness, sickness at the stomach, and severe head-ache, and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured for use by every seaman.

*HAMILTON'S*

WORM DESTROYING LOZENGES,

Which have, within years past, cured an immense number of persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from Worms, and from obstructions or foulness in the stomach and bowels.

This Medicine bears no analogy whatever to others of similar title, so commonly complained of as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age & constitution. It contains nothing but what is perfectly innocent, and so mild in its operation that it cannot injure the most delicate pregnant lady, or an infant of a week old, should no worms exist in the body; but will, without pain, cleanse the stomach and bowels, of whatever is foul, and and thereby prevent the production of worms, and many fatal disorders. The Lozenges are efficacious in taking off all gross humors and eruptions, feverish complaints, and the safest and mildest purgative that can be used on any occasion.

A dose of this medicine given occasionally during the warm season, will prevent "the vomiting and purging of children"—a disorder which annually destroys thousands of the infant part of our citizens. It is also the mildest and most certain remedy known, and has restored to health and strength a vast number when in advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance and a mild taste.

HAMILTON'S ESSENCE & EXTRACT OF MURTARD,

A safe & effectual remedy for rheumatisms, gout, palsey, sprains and bruises, white swellings, old strains and relaxations, numbers and weakness of the neck, pains of the side, head ache, swelled faces, frozen limbs and every similar complaint. It prevents chilblains or chopped hands, and the ill effects of getting the feet wet.

THE DAMASK LIP SALVE.

THE RESTORATIVE POWDER FOR THE TEETH AND GUMS.

This excellent preparation comforts and strengthens the gums, preserves the enamel from decay, and cleanses and whitens the teeth. By absorbing all the acrimonious slime and the foulness, which if suffered to accumulate never fails to injure and finally ruin them.

HAMILTON'S

*GRAND RESTORATIVE,*

Is recommended as an invaluable medicine for the speedy relief and permanent cure of the various complaints resulting from dissipated pleasures, juvenile indiscretions, residence in climates unfavorable to the constitution the immoderate use of tea, frequent intoxication and destructive intemperance, the unskilful or excessive use of mercury, the diseases peculiar to females at a certain period of life, bad lyings in, &c.

HAMILTON'S ELIXIR,

Celebrated for the cure of colds, obstinate coughs, asthmas, and approaching consumptions, and a certain remedy for the whooping cough.

# DOCTOR HANDY'S,

*WORM DESTROYING*

LOZENGES,

*A safe and efficacious Medicine for destroying and bringing away*

WORMS.

MAY be used with safety by children of any age, or as common physic by the most delicate constitution, in any climate, without restraint of diet, or the smallest danger from cold. It may be given with advantage after the small-pox or measles; or as a family medicine, in any case where physic is necessary. The most frequent seat of worms in the human body, is the intestinal tube; but occasionally they have been found in almost every other part of the body.

Some very extraordinary cases of *Worms*, of an unusual form and appearance, being brought away by these Lozenges, have been made public in England, where the rapid sale of the medicine exceeds any thing of the kind ever known before; and has also proved, to a demonstration, its approved superiority, as an athelminthick, to the numerous puffed-up, useless nostrums, which are daily advertised in the newspapers.

A single dose of this *valuable Medicine* has often been known to remove half a pot-full of the Teres or Round Worms.

A few doses are generally sufficient to remove the Ascarides, a small white worm, the seat of which is either the stomach or rectum.

Even the *Tape Worm*, at all times the most difficult to destroy, may, by persevering in the frequent use of this medicine, be totally removed in the course of a few weeks.

To select cases, with the names of people who are not known here, and living at a great distance, would be useless, and take up too much of the reader's time. We shall therefore only observe, for the benefit of those who are unacquainted with the symptoms of worms, that they are known or suspected to exist by a pain in the stomach, attended with a sudden depression of spirits before eating; at other times, the belly is hard, painful and distended with wind—costiveness, head-ache, and trembling of the limbs, with a sense of something rising in the throat—pale complexion and emaciated body, with weakness and irregular appetite—convulsive, epileptic, or falling fits—pains in the back and side, and frequent itching of the nose, and sometimes of the anus. The above, and a long train of afflicting diseases may all be occasioned by worms, which are much oftener the cause of death than is commonly believed.

# Doctor CHISHOLMS,

## Anti-Bilious Pills,

OF A QUALITY

*Superior to any thing of the kind ever offered as a*

GENERAL MEDICINE,

*IN THIS COUNTRY,*

NOW prepared from a recipe of the celebrated *Dr Chisholm*, who, from a long residence in the West-India islands, has been enabled to favor the world with the most complete history, and most approved methods of curing all the BILIOUS DISEASES of those warm climates.

This extraordinary medicine, which now for the first time is finding its way into general practice, has properties in the highest degree superior to the mercurial nostrums so frequently recommended by the name of Anti-Bilious Pills. The extraordinary powers of this medicine as a solvent and evacuant of bile, is without example; never producing debility, or injuring the health, in the smallest degree, of the most delicate child, or weakly female.

THE BILIOUS HEAD-ACHE, so much complained of in this country, and in the neighbourhood of rivers, is often removed by a single dose, which, to a strong man, is only five pills, and to a weakly woman, three. The same dose will generally remove the most excruciating pains of the cholic, like a charm, by abusing the bile to pass downwards in the course of an hour or two.

Two or three Pills taken an hour before dinner, and repeated every third day, will effectually remove those diseases arising from flatulency and indigestion, and by persevering in the use of them for a considerable time, the appetite will be improved, and strength and vigor will return.

Two Pills taken at bed time, with a cup of penny-royal tea, and repeated every second night, will effectually remove *Rheumatic pains*, wherever seated.

A single Pill, taken every fourth hour with a cup of flax-seed tea, will cure *Pleurisy*, promote expectoration, and relieve coughs and colds.

IN CONSUMPTIVE CASES and *diseases of the liver*, no medicine ever yet discovered, has been known to perform such cures. Two Pills, taken every third morning, will be found sufficient, unless costiveness prevails; in which case, the dose may be increased according to the strength or constitution.

The *Dysentery*, *Croup*, and *Summer Complaint* on children, are soon relieved by a few doses. A single Pill to a child of 6 years old, and the dose increased according to their strength and age.

In *Asthmatic* or *Phthisical* cases, where the laborious breathing and great oppression, with faintings, are fast sinking the patient to the brink of the grave, a few Pills, taking one every hour, with fennel or pepper-mint tea, will often enable the patient to walk about in a few hours.
